### Contents

1. Quarter II, 2023. Progress in Debt Management issues.
2. Somalia's External Debt - stock and flow data
3. Risks Indicators of the Debt Portfolio
  - a. Interest rate risk indicators
  - b. Refinancing risk
  - c. Foreign exchange rate risk
  - d. Debt service ratios
4. Upcoming Activities for QIII, 2023

### 1. Quarter II, 2023. Progress in Debt Management issues:

In this quarter, from April to June, 2023, the Government of Somalia remained committed in implementing its debt relief strategy and engaging with its creditors to secure the appropriate debt relief within the frameworks of the Paris Club agreement and the HIPC Initiative.

#### Status of Negotiations:

**1. Technical-Level Meeting:** On May 25th, 2023, the technical teams from Somalia and the Abu Dhabi Fund for Development convened to discuss the modalities required to achieve a pragmatic and equitable resolution concerning Somalia's debt relief appeal. During this meeting, the Abu Dhabi technical team made a noteworthy request for a brief proposal summarizing the main elements established through agreements with key Arab Bilateral Funds, particularly highlighting accords with the Saudi Fund for Development (SFD) and the Kuwait Fund for Arab Economic Development (KFAED). Subsequently, a brief proposal dated June 3rd, 2023, was dispatched to the Abu Dhabi Fund for their thoughtful consideration.

**2. Collaboration with OPEC:** Initiated efforts with the OPEC Fund are currently underway with the aim of securing invaluable support in the form of financial backing for the OPEC Debt Relief Trust Fund, as well as exploring the potential for a bridge loan. These strategic endeavors are focused on the speedy resolution of outstanding arrears.

**3. Russia Agreement:** A noteworthy development has been achieved in our negotiations with Russia, a creditor with some its debt resolution lies outside the conventional framework of the Paris Club. An agreement detailing terms and conditions for rescheduling this debt has been successfully reached. This pivotal accord sets the stage for the subsequent finalization of the Paris Club agreement within the forthcoming quarter. The anticipated signing of both agreements is scheduled to occur on the sidelines of the Russian-African summit, hosted in the city of Saint Petersburg, Russia.

**4. Ongoing Iraq Negotiations:** In the case of Iraq, dedicated efforts by the Debt Management Unit (DMU) continue to be channeled towards achieving an amicable agreement with the Iraqi

Government. These negotiations specifically pertain to the rescheduling of the remaining 33% arrears. Although ongoing, progress has been diligent, and both parties are actively engaged in fruitful discussions.

**5. Debt Relief Consideration by Bulgaria and Romania:** Significantly, Somalia's debt relief proposals are currently undergoing comprehensive evaluations by the governments of Bulgaria and Romania. Encouragingly, Romania has expressed its firm commitment to extend debt relief in alignment with the established Paris Club framework. Additionally, Bulgaria is in the process of reviewing Government Requests and is expected to communicate its stance to the DMU in due course.

As negotiations unfold, we remain steadfast in our pursuit of mutually beneficial resolutions and sustainable debt relief strategies. The collaborative efforts and remarkable progress achieved thus far serve as a testament to our commitment to securing Somalia's financial stability and fostering international cooperation.

On top of that, the debt management unit staff participated in the joint IMF-World Bank Debt Reconciliation Mission for the Completion Point under the Enhanced HIPC, from May 8-19, 2023 which took place in the World Bank Headquarter in Washington d.c., USA. The DMU team contributed excellent work during the mission. The mission aimed to complete the debt reconciliation exercise of the public and publicly guaranteed (PPG) external debt of Somalia at end-2018, and end-2022. The reconciled debt database will be used to prepare the HIPC Completion Point document for Somalia, which will confirm Somalia's eligibility for irrevocable debt relief under the Enhanced HIPC Initiative and the Multilateral Debt Relief Initiative (MDRI) and will assess Somalia's risk of debt distress using the Debt Sustainability Framework for Low-Income Countries, following the full delivery of debt relief under the HIPC and the MDRI Initiatives, and beyond HIPC debt relief.

With regards to the data presented in this bulletin, all the debt data refers to External Central Government debt and does not include any guarantees. Somalia does not, currently, issue any domestic securities and has contracted no domestic loans. No new external loan agreements have been signed during this period.

## **2. Somalia's stock and flow data, QII, 2023**

### *Stock of debt at end of Quarter II, 2023*

The existing debt portfolio for Somalia is made up of only external debt and it is divided into multilateral and bilateral creditors as well as and one loan from a commercial creditor in Serbia. Bilateral creditors are Somalia's biggest creditor type.

The total stock of debt at the end of Q II 2023 stood at USD 3,800.93, down by 29.22 million from the amount shown at the end of Quarter I, 2023, due to the arrears clearance of IFAD. Of the existing debt portfolio, multilaterals represented 28 percent of the total with USD 1,045.77 billion. The largest creditors, in this category, are the IMF, AMF, AFESD and IDA, in that order. Debt to bilateral creditors reached USD 2,752.60 billion with Paris Club creditors representing

close to 72 percent of the bilateral debt. The main creditors, within this category, are the USA, Russia<sup>1</sup>, Italy and France, in that order. The main Non-Paris Club creditors included mainly Arab creditors, such as Abu Dhabi Fund, Iraq, and the Kuwait and Saudi Funds. The commercial loan with a Serbian company amounted to USD 2.56 million.

Somalia's debt portfolio is still characterized by a sizeable amount of debt in arrears. There are remaining arrears mainly with non-Paris Club and other Multilaterals which represented approximately 28 percent of the total outstanding debt of the country. The Government is currently implementing an engagement strategy in order to approach the remaining creditors to clear arrears and to secure the appropriate debt relief contemplated under the HIPC Initiative. There is one claim considered commercial debt which was originally contracted with a SOE in the former Yugoslavia. The Central Bank of Serbia, however, notified the Debt Management Unit that it is in the hands of a commercial company. Table 1 includes a detailed description of the stock of debt at the end of Quarter I 2023 and Quarter II 2023. Table 2 shows the stock of arrears at the end Quarter II of 2023.

---

<sup>1</sup> Negotiations with Russia are being conducted in order to agree on certain claims currently in dispute.

## Debt Flows during QII, 2023.

As part of Somalia's IMF-supported program, during QII of 2023, Government continued to comply with debt service payments to the AfDB and IDA (as shown in table 3 below) which were financed by HIPC grants. With regards to the Paris Club, all debt service due as a result of the Paris Club agreement has been deferred until 2023<sup>2</sup> and Somalia is committed to secure the same treatment from Non-Paris Club creditors. Separate negotiations are being carried out with the other multilateral creditors that will provide the necessary HIPC debt relief as determined in the HIPC Initiative Decision Point Document and would minimize the fiscal impact.

**Table 3.** Somalia, debt service payment in QII, 2023, by creditor. (In millions USD).

### 3. Risks of the Debt Portfolio

#### a. Interest rate risk indicators

Most of Somalia's outstanding current debt portfolio has been contracted with fixed interest rate. However, when taking into account the existing stock of arrears, there are loans that were originally contracted with variable interest rates. Debt with variable interest rate is limited to loans from Iraq and Libya amounting to USD 11.75 million. Out of the total Face Value of debt, including arrears, only 0.36 percent had been contracted with variable interest rates.

#### b. Refinancing risk

The total amortization payments scheduled within one year is limited to four creditors: IDA, AfDB and the Saudi Fund and IFAD. The amortization profile of existing debt is presented in Fig. 2 below. The profile shows a concentration of payments between 2026 and 2031 due to the scheduled repayment of IMF and USA loans.

**Fig. 2:** Somalia repayment profile. 2024 – 2047. Million USD

Source: DMU, Ministry of Finance

### c. Foreign exchange rate risk

As mentioned in the previous section, all of Somalia's debt is in foreign currency. The stock of debt, by currency, shows a 44 percent of debt is denominated in USD followed by SDR at 17 percent which include a portion of loans from IDA, IMF, AfDB and IFAD, the Russian Rubble at 13 percent. Kuwait Dinar denominated debt stood at 8 percent, the other currencies represent 8 percent.

**Figure 3:** Somalia, total debt stock at the end of QII, 2023 by currency.

### d. Summary of Somalia's cost and risk indicators at end of 2022<sup>3</sup>

Table 5 below provides an overview of existing cost and risk indicators for Somalia's debt portfolio as of end of 2022. The indicators show a relatively long ATM (and ATR as all the current debt is in fixed interest rates) of over 12 years with a small percentage falling due in the next year (2.4 percent of total debt).

<sup>3</sup> Excludes existing debt to Japan

**Table 5:** Summary of cost and risk indicators at the end of 2022

| Risk Indicators    |                                                 | External debt |
|--------------------|-------------------------------------------------|---------------|
| Refinancing risk   | ATM (years)                                     | 12,90         |
|                    | Debt maturing in 1yr (percent of total)         | 2,40          |
| Interest rate risk | ATR (years)                                     | 12,90         |
|                    | Debt refixing in 1yr (percent of total)         | 2,40          |
|                    | Fixed rate debt incl T-bills (percent of total) | 100,00        |
| FX risk            | FX debt (percent of total debt)                 | 100,00        |

#### 4. Upcoming Activities for QIII, 2023

The government will persist in executing its strategy to engage with Non-Paris Club members and other multilateral entities to secure the complete HIPC debt relief envisioned within the HIPC Initiative. To achieve this objective, the Debt Management Unit (DMU) has devised plans to coordinate virtual meetings with various creditors. These meetings will serve as platforms for consensus-building regarding the ideal method of delivering the remaining HIPC debt relief. Furthermore, the DMU will undertake follow-up actions with Iraq, the Abu Dhabi Fund, and other bilateral creditors. The authorities will successfully conclude and formalize both the blocked funds agreement and the bilateral agreement under the Paris Club framework. Additionally, the DMU is committed to preparing and submitting a semi-annual report on the status of negotiations. This report is intended to provide the Paris Club Secretariat with a comprehensive overview of the progress achieved in negotiations with other non-Paris Club creditors.

<sup>4</sup> Projected debt stock excludes potential future debt relief
